

Private Property Delivery Policy

Thank you for your water order with Michigan Water Transport!

We understand how important the purchase of your pool and water are to you as well as the enjoyment it will bring to your family. We want to make sure that we are setting the proper expectations for your water delivery to your pool from the start.

Our normal delivery practice is to stay on the road and provide enough hose to reach the pool / hot tub. In the event that our driver must take our truck and trailer onto private property it will be at the risk and responsibility of the homeowner. Our drivers will always take every possible action to mitigate any damages to your private property, in the event of any damage up to getting the truck and trailer stuck on the property the removal of the equipment will be at the cost of the person(s) that signed the release to allow the equipment onto the property. If a tow truck is need the expense incurred will be the responsibility of the homeowner up to \$600.00.

If you have any questions through out your delivery process please contact our office and we are happy to assist and answer any and all questions.

Thank you and enjoy your summer!
